DETAILED ACTION

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on October 16, 2003 has been entered.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Scott Malpede on November 14, 2003.

The application has been amended as follows.

Drawings

The following changes to the drawings have been approved by the examiner and agreed upon by the applicant:

Figs. 21, 22A, 22B and 23 have been amended to include the legend --Prior Art--.

Allowable Subject Matter

Claims 9,10,17-19,21-23 and 26-29 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

Regarding claim 9, the references of the Prior Art of record fails to teach or suggest an image forming apparatus having the combination of the limitations as set forth in claim 9, and specifically comprising the limitation of heat insulating member disposed on the outer surface of the envelope including the surfaces of the frame, the first substrate and the surface of the second substrate except for the surface region on which the image forming means is arranged wherein quantity of heat generated by the second substrate is greater than that of the first substrate during operation of the image forming apparatus.

Claims 17,21,22 are allowable for the reasons given in claim 9 because of their dependency status from claim 9.

Regarding claim 10, the references of the Prior Art of record fails to teach or suggest an image forming apparatus having the combination of the limitations as set forth in claim 10, and specifically comprising the limitation of heat insulating member disposed on the outer surface of the envelope including the surfaces of the frame and the first and second substrates except for the surface region of the image forming means on both first and second substrates.

Claims 18,23 and 29 are allowable for the reasons given in claim 10 because of their dependency status from claim 10.

Regarding claim 26, the references of the Prior Art of record fails to teach or suggest an image forming apparatus having the combination of the limitations as set forth in claim 26, and specifically comprising the limitation of heat insulating member disposed on the outer surface of the envelope including the surfaces of the frame, the second substrate and the surface of the first substrate except for the surface region on which the image forming means is arranged wherein quantity of heat generated by the first substrate is greater than that of the second substrate during operation of the image forming apparatus.

Claims 19,27 and 28 are allowable for the reasons given in claim 26 because of their dependency status from claim 26.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
